

THEATERS / AUDITORIUM / STADIUM / CONFERENCE ROOMS

BROOKLYN DESIGN MDP®

BROOKLYN armchair is specially designed for theaters, auditoriums and conference rooms. It is an essential armchair, but at the same time capable of guaranteeing high levels of design, comfort and flexibility, combined with a comprehensive range of functional and use accessories.

THEATERS / AUDITORIUM / STADIUM / CONFERENCE ROOMS

The architecture of the armchair is developed to give a precise identity to all the elements that compose it: structure, armrests, seat, back. The latter, thanks to the particular shape in the lumbar support part, guarantees a high seating comfort.

Seat and back

Internal structure in plywood and padding in non-deformable, fire-retarded polyurethane foam. Seat can be tilted by gravity or by return spring, equipped with rotation pins and double steel support plate. Backrest also available in the version with load-bearing rear in visible plywood or sheet metal. Upholstery in fabric, eco-leather or leather.

Flanks

Side panels at the beginning and end of the row available with exposed wood or upholstered. Armrests in solid wood painted at the customer's choice.

THEATERS / AUDITORIUM / STADIUM / CONFERENCE ROOMS

BROOKLYN can be installed with variable wheelbase from 50 to 60 cm, the wide range of the wheelbase measurement makes it unique in its kind and adaptable to any project.

The armchair can be equipped with various accessories and each accessory can be customized, such as the sheet metal panel under the seat, which can be smooth, with slits to improve the acoustics, or with the customer's logo / design.
