

MONO

MONO chair has a rectangular design that opens the back, seat and armrests with one movement. The chair is only 12 cm deep in the upright position. The seat recovers spring-loaded while swiveling the back and armrests back into the case. MONO is designed by Philip Kronqvist.

Construction: Covered metal plate. Works with spring. The underside of the seat veneered plywood/perforated o or HDF. The backrest is upholstered, foam shaped to give good seating comfort. Background veneered or HDF.

Writing tablet: NoteWB

Armrests: Same as the casing

Foams: Seat 7 / 3 cm, back 2 / 4 cm, CMHR foam

Angle of back: 20 degrees

Wooden parts: Birch, beech, ash, maple, oak etc. lacquered, stained or painted with the desired color or laminated MDF

Metal parts: Powder coated with desired RAL color

Fabric demand: 0,60 m / pcs

Meets fire safety requirements:
